

Would you like to be a Volunteer Community Champion?

Community Champions are Volunteers who share health messages related to COVID-19 and other issues, to help improve the health and wellbeing of people in Telford. As a Community Champion, you would receive regular updates from Telford & Wrekin Council that you would share with family, friends, workmates and your community using any 'communication channel' you like, ie this could be email, face to face, telephone, social media, recorded messages or any other communication tools. The messages you would share will benefit all people, with a special focus on people most at risk from Coronavirus (COVID-19) including disabled people, those from an ethnic minority background and others, encouraging them to follow safer behaviours and reduce the impact of the virus on themselves and those around them.

Time:

As and when required – typically on average 1 hour a week would be helpful. The role should fit into your daily routine.

Training:

Telford Council provide initial online training and additional training to improve knowledge and understanding.

Support and supervision:

The council will do regular sessions via Microsoft Teams. They will give the most recent updates/guidance; chance to speak with those leading on the pandemic and opportunities for you to give feedback. You will be able to have informal chats as and when. Hayley Scott from Telford & Wrekin CVS can provide extra support if needed.
